

# JOCKEY WHEELS

BUILT TOUGH FOR DEPENDABLE  
LONG LASTING PERFORMANCE

## INTRODUCING

Our latest Jockey Wheel  
Windup 8"

Built tough for Australian  
conditions with a solid rubber  
wheel and clamp.

It delivers smoother rolling,  
stronger support, and easier  
manoeuvring.

Durable, reliable, and ready for  
any trailer setup - it's the  
upgrade that makes every  
hitch and adjustment  
effortless.

BUILT TO DOMINATE EVERY  
TOW AND TERRAIN

Confidence in  
every Journey

Description:	Jockey Wheel 8" Solid Rubber with clamp
Surface Finish:	Clear zinc plating
Travel:	26.67 +/-1.27 cm
Capacity:	454kgs/ 1000lbs

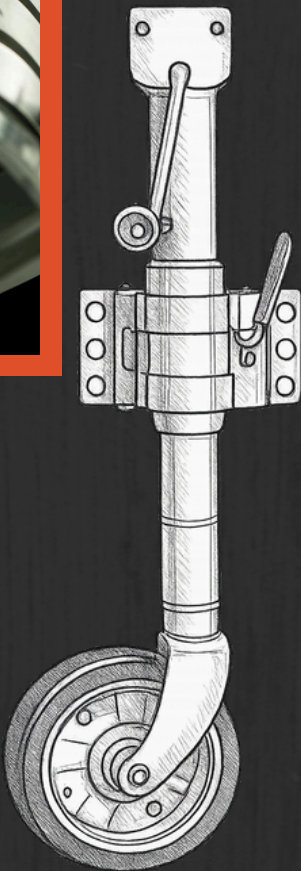

## INSTALLATION ADVICE:

- ✓ Mounting clamps should be fitted to a flat, reinforced area of the trailer drawbar.
- ✓ If upgrading, check your drawbar size to ensure compatibility with clamp size.
- ✓ Product can be bolt mounted or welded.

## TIPS FOR USE:

- ✓ Always remove the Jockey Wheel before towing.
- ✓ For soft or sandy terrain, consider using a Jockey Wheel Base to prevent sinking.
- ✓ Periodically check and grease the screw mechanism for smooth operation and longer life.
