FRIDGE ACCESSORIES

CLEARVIEW POWER SLIDE®

Easy access to cold food and drinks with the press of a button!

A large, fully stocked fridge can be extremely heavy, requiring a Power Slide that can effectively function under its weight, without adding unnecessary additional weight to the overall vehicle set-up.

Weight/GVM is an important factor in any set-up, and the Clearview Power Slide's aluminium extruded construction delivers the lightest slides available. Clearview Power Slide® models weigh between 29kg through to 38kg.

With a load rating of 180kg, the lightweight Clearview Power Slide® is designed to smoothly lower and raise a fully loaded fridge. Its unique scissor lift design is supported on each side by synchronized, self-aligning actuators, ensuring that the fridge always remains perfectly level.

CLEARVIEW EASY SLIDE®

The Clearview Easy Slide is an ADR and OHS compliant quality-designed product that can be easily installed in your vehicle, so you have easy access to cold food and drinks no matter where you're going. This state-of-the-art fridge lowering slide is easy to use and access from the back of your vehicle or from within your canopy.

Simply unlock the travel lock mechanism, pull down on the yellow ergonomic slide quick release runner levers and pull the fridge towards you to full extension. A gas strut-assisted vertical scissor lift action and safety latch system then allows for safe and easy lowering of your fridge, providing convenient access to its contents.

FRIDGE ACCESSORIES

CLEARVIEW EXPANDA SLIDE®

The straight fridge slide that fully adjusts to fit most portable fridges. Maximise storage and minimise movement – no matter the fridge you travel with. With 81 different tray dimensions possible, the Clearview Expanda Slide® is designed to fit your travel fridge perfectly!

CLEARVIEW® ADJUSTABLE FRIDGE CAGE

Store your gear safely around your fridge without restricting critical airflow with a Clearview® Aluminium light weight Fridge Cage! Fridges often change as circumstances change, so we designed a Fridge Cage that would adapt to your changing needs. The ES100 /ES-150 Fridge Cage is both width and height adjustable to fit a variety of fridge sizes and Easy Slides™. The Fridge Cage can be lowered to 3 pre-defined positions that are 50mm apart. Its footprint can also be adjusted to 2 pre-defined widths, to accommodate either our ES-100 or ES-150 Easy Slides, saving valuable storage space.

CLEARVIEW® CLIP ON TRAYS

The Clearview® Clip on Tray is a portable camping table designed to conveniently hang off your Easy Slide™ or Drop Slide. Each tray is supported by two-fold-out legs allowing the tray to hold up to 15kgs in weight. It's easy clip on/clip off design makes it a breeze to set up extra platform space to prepare a quick meal, snacks, or a cold drink! Stores easily underneath your Clearview Easy Slide™.

CLEARVIEW® CABLE SAVER

The Cable Saver protects your portable fridge cable from getting caught or jammed in the bearing runner of your fridge slides, by keeping them up and out of the way. The Cable Saver attaches securely to your fridge slide with its strong magnetised base.
