

POWERING YOUR ADVENTURES

PUREPRO2000

2000W INVERTER

The PurePro is a pure sine wave inverter designed to allow you to access reliable AC power wherever you are. Thanks to PurePro, RV travellers can enjoy comforts of 230V appliances and electrical devices, including airconditioning, microwave, hairdryer, power tools, laptops, coffee machines, CPAP machines, and more, when on the road and camping off grid.

The PurePro 2000W inverter features a clear and easy to read LCD display showing all the vital information about your power usage at a glance.

Compliance:

AS/NZS 4763

ATS Relay: IEC 61810-1

SPECIFICATIONS

Rated Power	<2000W
Peak Power	4000W
Input Voltage	12V DC
Input Current	200A
Input Range	10.5-15.5V DC
No-Load Current	<1.7A (<0.35A eco)
Output Voltage	240VAC
Output Frequency	50Hz
Output Waveform	Pure Sine Wave
Waveform THD	≤3%
Conversion Efficiency	89-92%
Operating Temperature	-10C to 50C
Cooling Method	Fan Cooling
Dimensions	428x253x94mm
Product Weight	4.8kg
Minimum Battery Size	200A

Last updated 2025-08-28

KEY FEATURES

- ☑ Pure 240V sine wave output
- ☑ Multi-function LCD display
- ☑ Integrated RCD protection
- ☑ Automatic AC transfer switch
- ☑ Dual 240V AC outputs
- ☑ Comprehensive protection: overtemperature, overvoltage, reverse polarity, short-circuit and overload protection
- ☑ Included remote switch
- ☑ Designated earth connection
- ☑ Tailored for high-end sensitive electronics
- ☑ 5m data cable
