

RATED HEAVY DUTY TOW POINTS

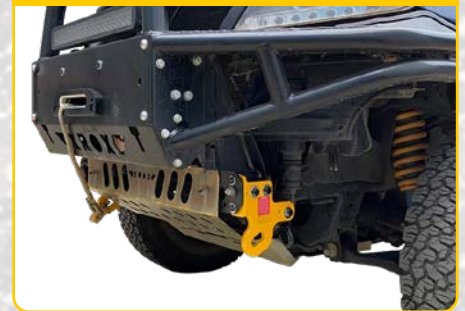

COMPATIBLE WITH TOYOTA HILUX N70 & N80 2005+

MUZZ BAR FITMENT

XROX FITMENT

The latest Roadsafe designed RPHILALL is supplied as a pair (LH & RH point) and has been designed for fitment on both N70 & N80 Hilux's with factory bumper and a variety of bull bar designs. Now including fitment with Opposite Lock, PIAK, ARB, MCC, MUZZ BAR, XROX & Genuine Toyota without modification to the Roadsafe 4WD Recovery tow point. Some trimming and adaptation may be required to secondary parts on some bull bars. This is noted in the fitting instruction & or Tow point fitment sheet on the Roadsafe website.

The latest technology is used with the development of Roadsafe 4WD tow points CAE (Computer Aided Engineering) & FEA (Finite Element Analysis) are both used in house during development. The WLL (Working Load Limit) rating which is applied at 5000kgs with a safety factor of 2 for each tow point is then validated independently at a NATA accredited lab by means of deformation testing locally in Melbourne.

The Roadsafe Hilux Tow Points when fitted correctly make for a convenient and strong tow point system to assist with recoveries. Always fit and use two tow point as a matched pair, with equalizing bridle, to maximize safety during a recovery.
